Easy Furniture collections are skilful, creative interpretations of a style of furniture and a style of living, balancing the classic and the contemporary. A project in progress, bringing new collections and new focus to every home. With a new range of material finishes which enhance the space with sophisticated craftsmanship and the natural warmth of veneered surfaces, or with a coordinated and equally attractive choice of lacquer finish colours. With new elements in metal or wood which go to make every furnishing situation more original and versatile. An even more extensive and updated modular range and potential for composition, for installation in every area and for total design freedom.

When it comes to sofa designing according to spaces things can get tricky. People often think small room equals small furniture, but too many small pieces in a small room can make everything feel tiny or cluttered. The key is to think of the scale of the sofa with the size of your living room. Also, consider how you use your living room, Meaning if you entertain a lot in your small home, make sure your living space is comfortable for yourself and family - so plenty of seating is essential. Here are few colourful modern and mix of styles to design sofa according to your choice. And for the living room which is big the sofa needs to be designed such a way that it matches the ambience accordingly.
